Dear friends and colleagues,

The Wall Street Journal published an extensive investigative report last week about American wiretapping Israeli targets, and mainly - PM Netanyahu, his aides and people with whom he met.

In an article published yesterday we review how the strained relationship between the leaders of the two states, and American weariness of Netanyahu's politics, lead to this highly irregular situation, in the era post Obama's public commitment not to spy on US's allies:

Have a good week,

Ronen
